7th

Foundation Day

— 6th June 2019 —

7th Vision Mission

VISION: *The Millennium School is committed to nurture the inherent potential and talent of each child, to create lifelong learners who will be the leaders of tomorrow. With Parents as our partners, we aspire to create global citizens who are innovative and have a strong sense of values.*

MISSION: *To inspire evolvement of children into self reliant, value oriented individuals, to foster spiritual upliftment and infuse a spirit of responsibility for emergence of a global society.*

QUALITY POLICY: *We, at The Millennium School, Surat, are committed to provide opportunities of learning and growth to every child. We will put efforts to develop the essential skills, which will prepare children to face real life challenges. Every individual associated with school should have progressive experience at school.*

TH

FOUNDATION DAY 2019

From the Executive Director's Desk

Greetings!

As students we were completely dependent on a school or a teacher for anything and everything we needed to learn. It was our primary source of information. That was past, today for our children information is everywhere, 24/7, thanks to the internet and modern-day gadgets.

So the question is, why do we still need schools? What should be the role of a school for the millennial learners?

Well, real education is not the "information" which we can obtain from internet or any other sources, Real education is learning how to be HUMANE.

Can we learn how to live by just gathering mere information? No!

Can we learn empathy and compassion from technology? No!

Schools should nurture the inherent potential of every child, develop creativity and skills needed to excel in real world. But more importantly, we need schools where children not only learn how to use information to their advantage but also learn how to co-exist with fellow human beings. Children should develop a value system which will help them build a strong character for illustrious future ahead.

Same has been the vision for The Millennium School Surat. While we work on skill development of our students, we consciously focus on character development and are committed to work towards it as we follow our vision in letter and spirit.

As we complete six years of this journey and celebrate the 7th Foundation day today, We would like to thank the entire TMS family including our children, parents, staff members, associates, mentors and all our well-wishers who have been part of this mission.

True education seeks to make men and women not only good mathematicians, proficient linguists, profound scientists, or brilliant literary lights, but also honest men with virtue, temperance, and brotherly love. It seeks to make men and women who prize truth, justice, wisdom, benevolence, and self-control as the choicest acquisitions of a successful life. ["Why Education?" Improvement Era, September 1967, p. 3]

Mrs. Kekul Vikas
Executive Director

From the Leaders' Desk

Dear Parents And Students

An exuberant welcome to the session 2019-20!

We feel we are blessed with a noble opportunity of colouring the souls of children around us with positive human values so that these children further spread the warmth and joy of positivity in the world where they venture ahead in life.

Schools have to be viewed as the lighthouse of society. It is a reflection of society. We must agree that fundamental changes can come in the society through education only. School is the formation ground where a nation builds its people and shapes its ideologies.

Infact, the Quality of education in our schools shall determine the Quality of our world tomorrow. That is why we say "Think today and change tomorrow"

'Good seeds sown in a fertile ground' to come alive, grow and bear good fruits in good time. We need to be fruitful and bring sweetness in others life. In order to be fruitful it is essential to have quality education in one's life which satisfies the mind, heart and soul.

Have you ever watched a weaver bird making its nest or an ant carrying a load heavier than itself? The bountiful nature is full of such examples which illustrate that every experience is a learning & challenging experience. Jacques Delors has rightly said that Education is based on the four pillars of Learning to Be, Learning to Know Each other, Learning to Do & Learning to Live & share together. "SCHOOL: the abode of learning" influences the all round development of pupils.

Our School has taken the moral responsibility to provide an atmosphere for spiritual, mental and physical growth of the children. The quality education releases capacities, develops analytical abilities, confidence in oneself, will power and goal setting competencies and instills the vision that will enable the child to serve the best interests of the humanity. Let our students become good seeds sown in a fertile ground of TMS to bear good fruits in good time.....

We are confident that TMS, will always be a beacon of light guiding the destiny of its students, while radiating kindness and compassion as it soars high in its pursuit of academic excellence and fulfilment of the school motto.

Students need to be cheerful ,confident and persistent.

We as teachers, can play the role of effective facilitators of learning by making children understand HOW to LEARN EFFECTIVELY rather than telling them WHAT TO LEARN. Teachers need to deal with individual differences in order to make learning easier.

Parents need to devote quality time with their wards. As parents, we need you to develop a close rapport with the school & the teachers, in order to smoothen the ups & downs in the child's development.

Let us all contribute to the all round development of the children & be enriched with learning experiences. We hope that Session 2019-2020 brings each one of us joy, cheer, good luck, health & wisdom. Let us serve others willingly, graciously & selflessly.

Mr. Sandeep Singh Kathuria
Principal

Faculty connected with TMS since inception, pen down their feelings

With just 53 students on board, I joined the institution with lots of hope and dreams in my mind. I feel proud to be a founder employee of an institution which has a mission and vision as wings of a bird and systems as its backbone. Being around the team which has a clear sight to give the best to the society through Young Minds, makes me feel special. Keeping in mind a greedy hope of same positivity and selfless deed to serve happy minds, I wish TMS Surat all the best for the fantastic upcoming years .

I feel proud to be a facilitator than a teacher as I can reach out to each and every child I come across. I enjoy my work and enjoy serving the young tiny minds in such a unique and special way. Hoping for many more days to come. To conclude it all, I would like to share what I have learnt from the school and the people around me, "live in the present moment. Make now the most precious time because now will never come again. "

Unnati Desai

My teaching journey has always been a fascinating one in TMS-Surat. It's the 5th year for me over here. With the Management's support n their faith in me, I have become more confident during this process. Proud of being a member of the TMS family.

Sakina Memon

I am glad to have been associated with TMS for this long. It has not only helped me to grow as a professional but also as an individual soul. This has only been possible due to the curiosity to explore and sheer openness of our school's seniors. They have been supportive and constantly guided us in the right direction, keeping a clear vision and mission in mind. I look forward to experience many more fruitful years at TMS.

Hardik Patel

I have been associated with this institution since it's inception. i have attended the first day of this school and have had a satisfying , enriching and pleasurable journey till now. I can happily say that i am enjoying this life. I recollect the day when the school did not have enough strength, the students were very less in the class-room as compared to the benches and i had mentioned to Kekul Mam that a day shall come when we will have to increase the number of sections. I am happy to see those words have come true. My Best wishes shall always be with The Millennium School, Surat

Tapan Kumar Pramik

સૌ પ્રથમ હું મિલેનિયમ શાળા પરિવાર ને અભિનંદન પાઠવું છું. આજે હું ગૌરવની લાગણી અનુભવુ છું, કારણ કે આ શાળા પરિવાર તરફ થી છેલ્લા ૪ વર્ષથી મને જે કે કઈ નવું શીખવા મળ્યુ છે, તેના માટે હું શાળા પરિવાર નો આભાર વ્યક્ત કરુ છું. આ મિલેનિયમ શાળા ના સાતમાં સ્થાપના દિવસ માટે હું શુભેચ્છા પાઠવું છું. આ મિલેનિયમ શાળામાં ગુજરાતી વિષય પસંદગી માટેનું એક નવું કદમ મારા માટે એક પ્રેરક બળ સ્વરૂપે હતું, એમાં શાળા પરિવાર તરફ થી જે સહકાર મળ્યો તે માટે હું શાળા પરિવાર(વ્યવસ્થાપકો) નો ખુબ ખુબ આભાર માનુ છું. આ સંસ્થા તરફ થી મને ખુબ જ સહકાર પ્રાપ્ત થયો છે, હું હંમેશાં આ સંસ્થાના વિકાસ પ્રત્યે પ્રયત્નશીલ રહીશ. મિલેનિયમ શાળા જે રીતે પ્રગતિશીલ છે તે રીતે ભવિષ્યમાં પણ તેથી વધુ પ્રગતિ કરે તેવી પ્રભુને પ્રાર્થના.

Yogesh Patel

To be honest, I was never keen to be a part of the education field. When I joined Little Millennium, I realised that education was something I was interested in. Then I got a job in The Millennium School as a teacher & it is one of the best experiences of my life. My first day in the classroom went better than I expected. This experience has taught me a lot about what it means to be a teacher & a lot about myself, as a future educator. I'm more than excited to explore this amazing field that is education because of The Millennium School.

Fenali Shah

Four amazing years of continuous learning, continuous evolution as an individual. Millennium has been a great working place surrounded by some amazing colleagues from whom I have learnt a lot. The concept of field trips not only provide experiential learning to students but also has helped to learn more about the children through close observation which in turn helped me to groom well the young minds. The syllabus is another USP of Millennium which helps the children to be more informative

Anamika Biswas

My journey in TMS Surat started 3 years ago. It has been a remarkable, memorable, adventurous and an enlightening journey which has transformed me from a teacher to a facilitator. I have enhanced my skills, moral values and empathy for my learners. I thank the entire TMS family for their love and support always.

Mayuri Bhalara

This school has given me many benefits right from using group work as part of teaching to learning different ways of teaching. Working in teams has made work a lot more easier leading to an involving and satisfying experience for students as well as for me as a facilitator. I have certainly developed a stronger sense of obligation amongst the members and increased enthusiasm towards the completion of the task. These personal reflections have changed and improved me in a variety of ways. I think more broadly and wider now in terms of context and structure. I am grateful to be a part of The Millennium School.

Lahar Shah

When I joined TMS, I had a clinical background of working in a hospital. Working as a Special educator and imparting inclusive education was a completely different and emotional experience for me. I could connect better with children and understand their special needs. In my Journey of over 5 years, I have got all the support from the friendly and motivating colleagues, all my seniors and from the Management especially Kekul mam and Vikas Sir, have always been there to guide and encourage me to do better.

Fizza Raj kakajiwala

It has been an association of more than 3 years with TMS. Needless to say I have developed an invincible bond with this institution. Supportive management, positive people, great environment and opportunities given have helped me to grow as an individual for better both at professional and at the personal front.

Sudha Dokku

I'm grateful for all the ways, The Millennium School has made life at work so much better. I would like to extend my gratitude to the higher authorities as well as the management of the school which has always been the backbone for the teachers. I have learnt and explored my experience in this school which includes a number of elements. Sharing and discussing different ideas and knowledge amongst the group has also given me a brief insight on how to deal with problems and come up with an applicable solution. I exercised a great opportunity of developing and enhancing myself effectively and efficiently with the help of other people's ideas and especially my coordinator, Mrs. Pinkal Patel which has been an advantage for me throughout. I am happy to be a part of this school which extends such unique step by step learning levels for the students and understands the needs of the students and gives us fruitful teaching ideas to shape the future stars in a much better manner.

Tania Rohra

Students pen down their feelings

I have been a part of the school for around 5 years now and this has been a wonderful journey so far, with a lot of fun, enjoyment, learning, development and what not along the way. I made a ton of friends, learned from them in completely different ways and the teachers have been the most supportive and helpful. I'm so grateful for having the opportunity to come to this very school, grow here and develop into a better human than what I was earlier. Nothing would have been possible if it weren't for the amazing faculty and founding members of the school.

Devina Vijayvargia
XI-Commerce

I have been a part of this school since the first day. And it has been an amazing experience. I have seen myself grow and learn new things and have woven plenty of memories over these 6 years. The school has grown along with the students and I'm sure one day together we all will reach immense heights.

Urshita Patel
XII-Humanities

My school has been a great support to me it has boosted my confidence and communication skills to the maximum. My initial steps were very wobbly but the millennium learning system has made me steady. I thank the entire TMS Family from the bottom of my heart
